Dear Carolyn Sullivan,

It is my pleasure to recommend Kathleen Murphy to the Vancouver School Board Artists in Residence Program. Her work as an artist and an instructor with our project proved that she would be a valuable addition to any school art project.

I have worked closely with Kathleen over the past year on a permanent outdoor "Story Circle" installation at Macdonald Elementary School. Her creative approach and flexible working style created an instant, excellent rapport with the staff and students who were eager to participate. The clay tiles they created together added a colourful and personal touch to the space, making it a huge success. The Principal, staff and children all agreed and expressed that Kathleen's contribution, has been invaluable to the process of bonding the children with the new multi purpose performing/literacy space.

Kathleen is driven, focused, reliable, hard working and very skilled at her craft. Her attention to fine detail is commendable and professionalism second to none.

I would have no hesitation in recommending Kathleen for any school art project.

Sincerely,

A handwritten signature in black ink, appearing to read "Dolores Altin", is written over a light grey rectangular background.
